MANHATTAN

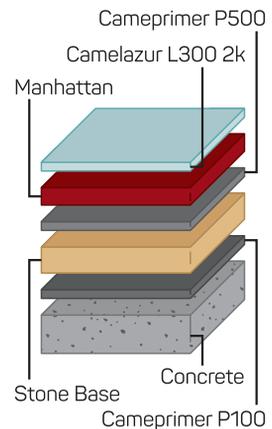

Spatula Effect

MANHATTAN Spatula Effect for floors is an extraordinary and exclusive floor layer of very low thickness. Silver or gold additives of metallic pigment create an elegant effect that perfectly fits in both modern and classic interiors. It allows you to obtain floor-to-wall solutions according to the standard of contemporary design. Applicable to new surfaces as well as to existing floors.

USES

Inside flooring, private rooms, flats, bathrooms, showers, kitchens, shops, offices, public utilities with medium pedestrian traffic.
